Description

Overview

Any snow and ice contractor will tell you, managing sidewalks has its own set of challenges. The BOSS Snowrator is a patented, right-size solution designed to make quick work of snow-and ice-covered sidewalks and brings a maneuverable, multi-tasking, labor-saving solution to your fleet. Snowrator reduces the need for shovelers, maximizing productivity, and efficiency- whether in the metro, commercial or residential environments- where clean and clear walking surfaces are always the top priority. Snowrator is a labor saver. The Snowrator quickly deploys to plow and de-ice surface areas- effectively reducing the need for shovelers. Snowrator is a time-saver by allowing the operator to brine, spread, and plow at the same time to maximize on-the-job productivity and profitability. Snowrators never call in sick and are always ready to get the job done.

BOSS-Designed 4' Hydraulic Snowplow with 20" polyethylene skin improves reliability and maximizes productivity in light and heavy snow.

20-Gallon Anti-icing Brine System quickly and efficiently controls surface area ice.

Optional Exact Path 1.5 Cubic Foot Drop Spreader was designed exclusively for the Snowrator to distribute salt at the optimum width while reducing contact with the plow attachment system and minimizing damage to turf.

Optional 1.8 Cubic Foot Broadcast Spreader provides a wider-casting spreading option for larger areas and wider sidewalks.
