Description

Having the right commercial caps for your trucks improves the safety and versatility of your fleet. Our standard Ready Caps are designed and validated for recent model year design changes to ensure an exact fit with your OEM equipment. Exterior side compartments (two on each side) deliver ample space to store and transport tools and materials for improved productivity and convenience working in the field.

Ready Caps by Reading Truck Body come with vertical "barn style" rear doors. It is constructed with Reading's premium A60 galvanized steel and revolutionary acrylic E-Coat primer for lasting strength and durability. It also features our exclusive Dual-Pro(r) door seals, reinforced double-panel doors and bolt-on stainless steel hinges for superior protection against leaks and break-ins... Cash & carry -- add \$1200 for installation -- cap was on long bed Ford Ranger pickup truck. Stop by or give NICK a call at 845 454-7500 THANKS
